

## NORFOLK & WESTERN HISTORICAL SOCIETY

# Annual Convention 2019

## Welcome to Roanoke!

Thanks for joining us for the 2019 Annual Convention! We are glad to welcome you back to Roanoke. It is a time for some fun and fellowship. While we realize that the big railfan event is out west, we appreciate your dedication to come to Roanoke.

Please check the schedule closely, as some times and locations have changed.

For your visit, we have to remind you to not trespass on private or railroad property. It is reported that the NS police are now watching a lot closer, and trespassing is not treated lightly.

The 611 will be here, not under steam, unfortunately, and this may well be your last chance to capture the big three together, as 611 will be leaving to visit the Strasburg Railroad later this summer, and may not return to Roanoke until next year.

All events are subject to change even up to the last moment. We have no guarantees on anything, but expect everything to work according to schedule.

One thing the organization needs besides money, is volunteers, if you see someone behind a desk or table, thank them for their efforts, they are volunteering their time to help the society. You can volunteer as well, talk to President Todd Arnett or Ken Miller, they will be glad to work with you and find a place.

We will be announcing our 2020 Convention at the membership meeting on Saturday morning, it will be a totally new location and has some interesting tours lined up already.

Remember be safe no matter where you are, and what you are doing!

## Detailed Schedule

During the convention, your name badge will get you a half-price admission at the O. Winston Link Museum, and 25% off your normal admission at the Virginia Museum of Transportation. Please visit our partners.

Anthony Company of New York travelled to southwest Virginia in search of new, and potentially lucrative photographs of the emerging resorts at this area’s natural springs. Along the way, Anthony’s team inadvertently captured a series of stunning rail images along the Virginia and

Tennessee Division that are largely overlooked by historians today. Almost 150 years later, these surviving images – in the form of stereoscopic, or 3-D pairs – show us what life was like along the line of the Atlantic, Mississippi & Ohio Railroad.

#### **Our Archives**

---

A visit to Roanoke without visiting the Society’s own Archives would not be complete. In that respect, our Archives will be open on Friday and Saturday, and if we have enough interest, also on Sunday.
